

## A REPORT ON WOMEN'S CELL

### TINSUKIA COMMERCE COLLEGE

It is a heartening aspect that Tinsukia Commerce College did not have any Women's Cell from its inception (i.e. 1972) till 2013. The reason behind this is solely the lower proportion of girl students in the single stream college. But with the opening of Arts stream and enrolment of giant portion of girl students, the need of formation of Women's Cell is strongly felt from 2013 onwards.

On 08/09/13 a meeting was organised in the Community Hall of the college assembling all permanent and temporary teachers and decision was taken to form the Women's Cell.

On 16/09/13 a meeting was organised and formal announcement was given about the formation of Women's Cell.
